ABOUT ME

I am a Full-stack developer who loves to build and ship intelligent and secure software systems. I am seeking for the opportunity to work with teams so I can use my skills efficiently to make impact in businesses and humanity. I love learning a lot, and even more that that, I love to teach. When I am not learning or teaching, I love to dress up and take cute photos.

EDUCATION

10/05/2023 – 01/07/2026 Abuja, Nigeria

B.SC COMPUTER SCIENCE University of Abuja, FCT, NIGERIA (IN THE PROCESS).

- Led a class project of 15 students to build a Chatbot for the Universality using ML (Naive Bayes) and NLP which increased response time by 100% and reduced Administrative repetitive questions.

Website uniabuja.edu.ng | **Field of study** Computer Science, Speciality: Web App Development , Artificial Intelligence & Machine Learning

Thesis Design and Implementation of an AI-Powered Chatbot for University Information Services: Case study of the University of Abuja

WORK EXPERIENCE

04/2025 – 03/2026,

SOFTWARE ENGINEER TESMEG LTD

- I lead the development of scalable web applications, handling both frontend and backend systems to deliver complete, production ready web solutions.
